Dennis,

I received your recent telephone message. I just completed a required NRC inventory reconciliation report that was due on January 31, 2013. See the email below.

I will start working again on the DFP next week. By the way, currently this is flu season in the United States; moreover, one of our two Gammacell irradiators is down at a very bad time. Our scientists who use the irradiators as a tool for their vaccine research are questioning me daily: RSO, when will the irradiator be operational?

Will be in touch!

Paul Simpson, the Lone RSO at the HQ, CDC

PS CDC is not hiring FTEs.
